## Professional Summary

---

An analytical, goal-driven problem solver and highly motivated software engineer with industry experience obtained from developing web applications. Skilled in conducting manual tests and debugging client projects for better company-client relationships.

## Education

---

**Software Engineering Technician, A+**  
Centennial College, Toronto, CA

September 2020 – April 2022

## Licenses and Certifications

---

**The Complete JavaScript Course 2022: From Zero to Expert!**  
Udemy, Jonas Schmedtmann

February 2022

**React - The Complete Guide (incl Hooks, React Router, Redux)**  
Udemy, Maximilian Schwarzmüller

March 2022

## Projects

---

**Mapty App** | <https://github.com/JoabPa/Mapty> | <https://mapty-jpr.netlify.app/>

- An app to track exercises and render them into an interactive map. Built using the Leaflet API, the development of Mapty implements high level html5, CSS and JavaScript, using asynchronous programming, JavaScript classes and the most up-to-date approaches.

**ReactMeals** | <https://github.com/JoabPa/ReactMeals> | <https://reactmeals-jpr.netlify.app>

- ReactMeals lets the user chose different dishes, view a summary and place an order. This app sends POST/GET requests to Firebase as its database and implements all the core features of React.

**Instagram Clone** | <https://github.com/JoabPa/Instagram> | <https://instaclone-jpr.vercel.app>

- An Instagram clone built with React. Based on Firebase as its database, this app implements functionalities such as React Hooks, React Router and Tailwindcss to build the UI. It is tested with Cypress to write integration/unit tests, achieving 90%+ features tested.

**SurveyWizard** | <https://github.com/Survey-Wizard/SurveyWizard> | <https://surveywizard-jpr.herokuapp.com/>

- An app to generate multipurpose surveys, share them and track/analyse responses. SurveyWizard was built with Express.js and uses MongoDB as its database, it is based on TypeScript, implements the MVC architecture and uses bootstrap to develop the UI.

## Technical Skills

---

**Proficient:** [Html, CSS, JavaScript, React, Redux, Node.js, Firebase, Git, Npm/Yarn]

**Familiar:** [Python, C#, SQL, Java, Next.js, Express.js]
